Summary

MCA student with an interest in software development & cybersecurity. Familiar with Java, Python, web technologies and databases. Strong problem-solving skills & eagerness to learn new technologies.

Experience

Web Developer Intern

MLS University • Udaipur, Rajasthan

07/2023 - 08/2023

During my one-month internship at MLSU University, my primary responsibility was to design and develop the frontend of the 'Pukar' project using Angular, while collaborating closely with a colleague who managed the Laravel backend. This experience allowed me to gain practical expertise in frontend development and effective teamwork, contributing to the project's success.

Skills

Languages : C, C++, Java, Python, JavaScript

Web : HTML, CSS, Bootstrap

Database : MySQL

Cybersecurity : Vulnerability Assessment, Burp Suite

Soft Skills : Problem-Solving, Teamwork, Communication

Education

Master in Computer Applications (MCA)

10/2023 - 10/2025

MLS University • Udaipur, Rajasthan

Bachelor in Computer Applications (BCA)

08/2020 - 08/2023

MLS University • Udaipur, Rajasthan

Certification

- Backend Web Development (2022) – TCR INNOVATION

Project

Project Name – Personal Portfolio

In this project I have developed a portfolio website in which the frontend is made using React and Tailwind CSS. I have also integrated a chatbot-SIFRA in it for enhancing user experience and accessibility. Technology used – React.js, Tailwind CSS, React-router, Vercel, Chatbase
